

Seddon's new furniture package helps young mum settle into new home

With Christmas fast approaching, young mum, Deborah Shaw, could not wait to put down roots for herself and her children, Ella (9) and Sam (8).

From renting a furnished house for the previous seven years, to purchasing a new home herself, Deborah recognised that she would have to buy everything she needed from scratch. But, when would she have the time or the money to go shopping, let alone be able to take time off work to wait for deliveries? And with Christmas just around the corner, time really was of the essence.

Luckily, Deborah chose her new home at the Seddon Homes Bridgefold development in Rochdale, where Seddon is trialling a range of packages to help buyers resolve this issue and move straight in.

From a Furniture and Accessories pack to Floor Coverings and even Vertical Blinds, buyers can choose which package they need with prices beginning at £399 for blinds in a 2 bedroom home, ranging up to £3,100 for a full Furniture and Accessories pack in a 3 bedroom home.

“The Seddon Homes furniture package is a brilliant idea!” commented Deborah.

“Everything I could wish for was included – from beds (and bedding) to bedroom furniture to sofas, dining furniture, rugs, pictures and mirrors; not to mention cutlery, pans, a toaster and kettle – and even a much needed bottle opener! We literally bought tea bags, milk and breakfast cereal and were settled in our new home the same day.”

Deborah continued.

“Moving into a brand new home meant that I also wanted everything in it to be brand new too and by using Seddon’s optional extras, our new house immediately felt like home.

Due to the neutral co-ordinated colour theme throughout the house, I have been able to move smaller items, such as lamps, from one room to another.

Not only was I impressed with the level of service I received throughout the buying process with Suzanne, Bridgefold’s Sales Advisor, I was also delighted with the quality of the items included in the package – I literally would not have changed a thing,” concluded Deborah.

Deborah’s high praise for the new furniture package has been matched by other prospective buyers, just stepping onto the property ladder or starting again and Seddon Homes is now looking at rolling out the optional extra initiative across its other developments.
